BUSINESS MODEL CANVAS

Assoc. Prof. Dr. Umi Kartini Rashid
Johor Business School, UTHM

OUTLINE

01 Introduction

02 What is a Business Model?

03 9 Elements of Business Model Canvas (BMC)

04 Real World Applications of BMC

05 From BMC to Pitch

06 Key Takeaways & Summary

LEARNING OBJECTIVES

By the end of this session, participants will be able to identify:

1. The Basics of Business Models
2. The 9 Elements of the Business Model Canvas (BMC)
3. The Application of BMC in Real Business Settings

Why Business Models Matter

Many businesses fail not because the product is bad, but because the business model is weak.

Why do businesses fail?

1. Unclear target customers
2. Weak value proposition
3. Poor revenue and cost structure
4. No clear plan for how the business works

A good business model helps a business survive, grow, and compete.

BUSINESS MODEL 1

What Is a Business Model?

A business model is the framework a company uses to create value, deliver value, and earn revenue.

How Does a Business Model Work?

A business model explains how an organisation **creates value, delivers value,** and **captures value.**

THE 9 ELEMENTS OF THE BUSINESS MODEL CANVAS (BMC)

2

BUSINESS MODEL CANVAS

A business tool used to describe the key building blocks needed to start and run a business, including customers, channels, value proposition, and finances.

Business Model Canvas (BMC)

Alexander Osterwalder (2005)

THE 9 ELEMENTS OF THE BUSINESS MODEL CANVAS

1. **Customer Segments** (Who are your customers?)
2. **Value Propositions** (What value do you offer?)
3. **Channels** (How do you reach your customers?)
4. **Customer Relationships** (How do you build and maintain relationships?)
5. **Revenue Streams** (How does the business earn money?)
6. **Key Activities** (What key activities do you perform?)
7. **Key Resources** (What key resources do you need?)
8. **Key Partners** (Who helps you deliver value?)
9. **Cost Structure** (What are your main costs?)

FROM BMC TO PITCH

The BMC helps you **think.**
The pitch helps you **convince.**

Why this matters

A BMC organises your **idea clearly.**

A pitch presents the **strongest parts** of that idea.

When the BMC is clear, the pitch becomes **easier to build.**

A SIMPLE PITCH STRUCTURE

A short pitch can follow this flow

01	Problem	**What problem exists?**	Highlight the pain point and why it matters.
02	Customer	**Who has the problem?**	Describe your target customers.
03	Solution	**What are you offering?**	Explain your product or service.
04	Value	**Why is it useful or different?**	Show the key benefits and what makes it unique.
05	Business Model	**How will it work and make money?**	Explain your revenue model.
06	Impact	**What difference will it make?**	Highlight the social, environmental, or economic impact.

KEY TAKEAWAYS

- **Know your customer** - Be specific. “Students” is usually too broad.
- **Solve a real problem** - A strong idea solves a real need, not just an interesting feature.
- **Build a model that makes sense** - The 9 blocks of BMC should connect into one clear business story.

SUMMARY

"A business model is more than just a drawing on paper. It is a compass. Without a compass, a ship will not reach its destination."

People don't **buy** what you do; they buy **why** you do it. And what you do simply proves what you **believe.**
